Initial on each line to indicate that you have read and understand the following:

1. ____ I have used: Site Plan A Site Plan B Site Plan C My Own Site Plan (select one), annotated as needed, in order to fulfill the SWPPP requirements set forth in Kearney Municipal Code, Chapter 9, Article 16.
2. ____ All BMPs will be constructed, installed, and maintained according to the minimum standards and specifications set forth in either the City's ESC Manual, the NPDES States General Permit, or in accordance with locally-approved technical standards, specifications and guidance for construction activity, and will be in place and in working order prior to any construction activity.
3. ____ BMPs will be installed, operated and maintained to protect public ROW, streams, rivers, ponds, and wetlands from sedimentation and a spill prevention plan will be followed for any spills or illicit discharges that may leave the site.
4. ____ Proposed BMPs are shown on the attached Site Plan. The construction details, application schedule, procedures, operations, and maintenance of the proposed BMPs shall be in conformance with locally approved standards.
5. ____ If applicable, any features of the site that are vulnerable to erosion, as well as BMPs implemented for these features are shown on the attached Site Plan.
6. ____ All BMPs will be inspected by qualified personnel at least once every fourteen calendar days during active construction and within twenty-four hours after any storm event greater than 0.5 inches during a 24-hour period. Any necessary repairs or clean-up to maintain the effectiveness of the BMPs shall be made within 72 hours and/or prior to the next storm event whenever practicable. If implementation before the next storm event is impracticable, the situation will be documented in the Site Plan and alternative BMPs will be implemented as soon as possible.
7. ____ Sediment deposited into or upon any street, alley, sidewalk, public way, storm drainage system, or public ground will be removed within 48 hours. A contingency plan will be implemented for unforeseen erosion or sediment problems, including emergency situations caused by storms.
8. ____ Following any construction activity, final or temporary stabilization shall be completed as soon as practicable, but in no case more than fourteen days, to the surface of all perimeter controls, topsoil stockpiles, and any other disturbed or graded areas on the project site which are not being used for material storage, or on which actual construction activity is not being performed.
9. ____ Either the lot will be stabilized by the builder at the end of construction, or the homeowner will be informed in writing of the need for final stabilization.
10. ____ This form must be available on the construction site.
