## **City of Kearney Partners with Municode**

The City of Kearney is pleased to announce its partnership and the launch of a new and modernized online Code of Ordinances today with Municode, a municipal legal codification company based out of Tallahassee, Florida.

“We are honored to work with the City of Kearney on this project,” said Eric Grant, President of Municode. “Kearney has been very forward thinking through the years. The technology Municode has developed will allow Kearney residents to more conveniently and efficiently access the legal guidelines for how to work and play in the City.”

The new online format of the City’s code of ordinances will allow easier search capabilities for city residents as well as advanced search functionality for power users. In addition, the end user will be able to more easily extract this information in the form of email, print, and/or Word documents. Lastly, every citizen will be able to utilize the code in a mobile format, which means that on any smart phone or tablet device, one can search and view the Code of Ordinances - anywhere, anytime.

The code can be viewed at the City of Kearney’s website, or in Municode’s nationwide code library: [https://www.municode.com/library/ne/kearney/codes/code\\_of\\_ordinances](https://www.municode.com/library/ne/kearney/codes/code_of_ordinances)

Municode has served local governments for over 66 years and hosts the largest online Code of Ordinance library in the nation. In addition to codification and document management solutions, Municode creates customized municipal websites, consistent bill presentment, and accessible electronic payment solutions for local governments both large and small. For more information, visit the company’s website at <https://www.municode.com/>.
